

Aquastyle

**Air and water
temperature display**
for swimming pools

Bodet

Aquastyle

The Aquastyle display enhances both indoor and outdoor swimming pools. Installed in the pool area or in the main entrance, it can display the water temperature for 1 or 2 pools.

The Aquastyle will complement all types of swimming pool design and complies with any electrical and safety norms.

The display comprises high luminosity red diodes allowing the display vision in all types of lighting conditions.

The Aquastyle provides :

- On the upper 12 cm display : permanent time or air temperature or alternate time/air temperature (every 3 seconds).
- On the two lower 7 cm displays : water temperature for 2 separate pools or water temperature for 1 pool and pool area air temperature.

Models :

- Indoor : for the pool main entrance area.
- Sealed and weatherproof : for pool area itself or outside environments.

Clock versions :

- Quartz independent with optional radio synchronisation.
- Slave unit with IRIG B / AFNOR time coded signal or impulses.

Main features :

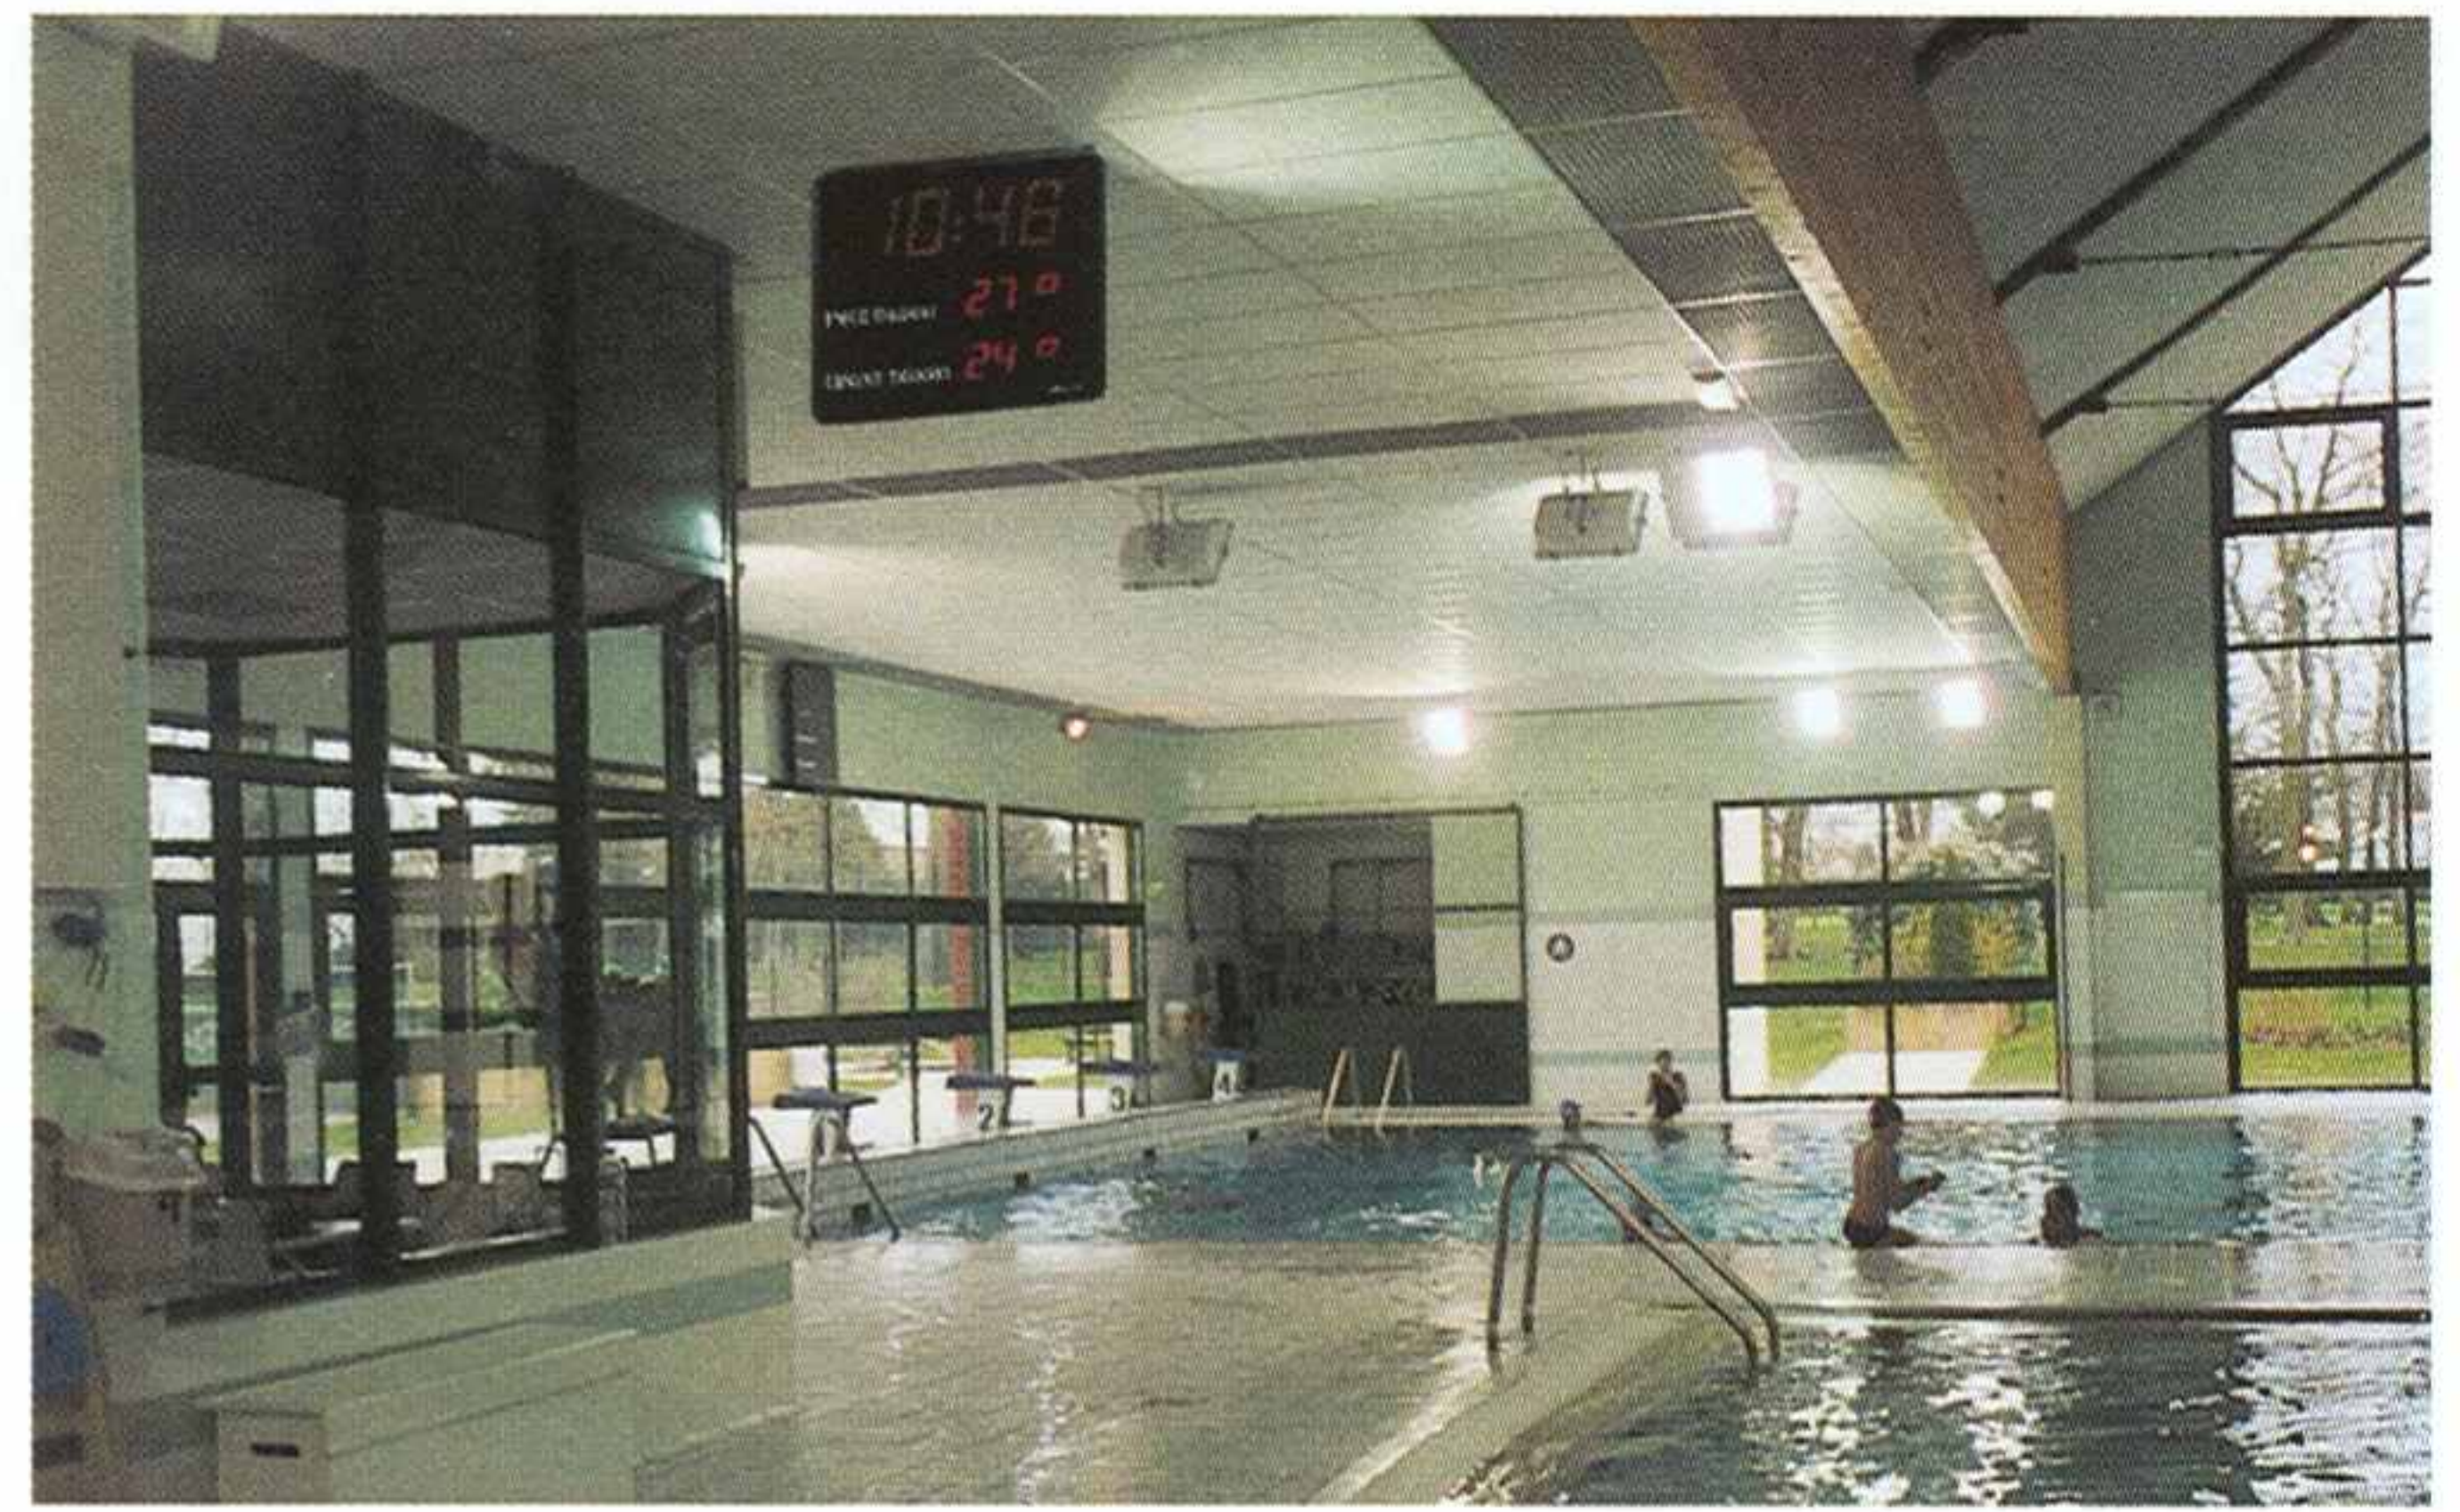

- Matt black aluminium casing with rounded angles.
- Wall mounting or ceiling mounting with an optional suspended bracket.
- Antiglare filter (without glass).
- Temperature, time and luminosity can all be adjusted without opening the display casing.
- Temperature probes supplied, optional stainless steel tube available for temperature probe fitting in water outlet ducts.
- Power supply 230 V \pm 10 % - 32 VA.
- Time basis accuracy 0,2 sec /day for independent version, absolute accuracy with radio synchronisation.
- The electronic components are designed for tropical environments and all metallic items are treated against corrosion and humidity.

 Readability	30 meters minimum
 Protection index	indoor IP 41- outdoor IP 54
 Operating temperature	- 20° to + 70° C in humid area

Choice of two stickers for permanent text among :

- Air T°
- Small pool
- Pool T°
- Large pool
- Other text available upon request

N.B. : the Aquastyle is only available in the single sided version : each display using its own temperature probes.

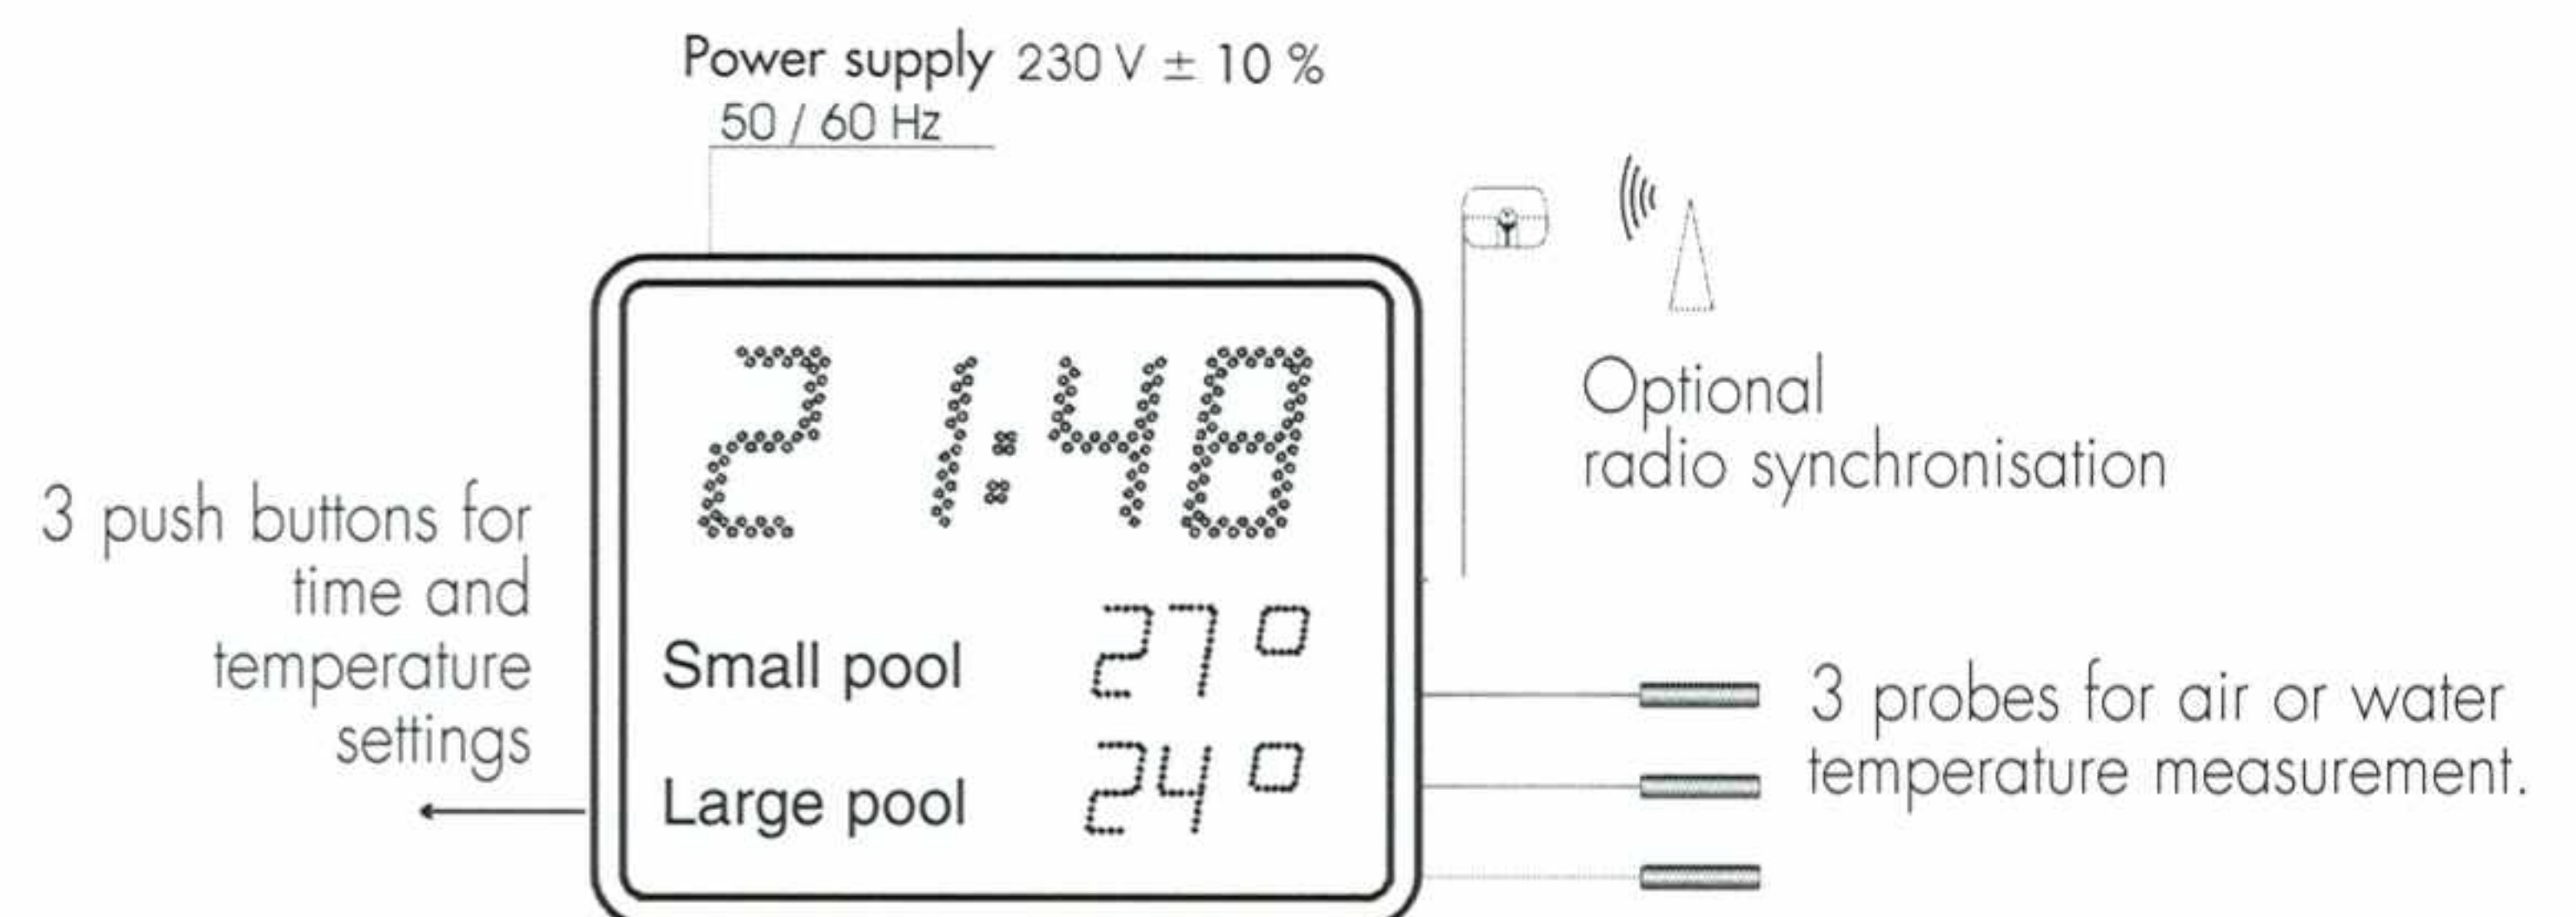

Aquastyle for 2 pools

- Alternate display of time/air temperature
- Water temperature of 2 pools

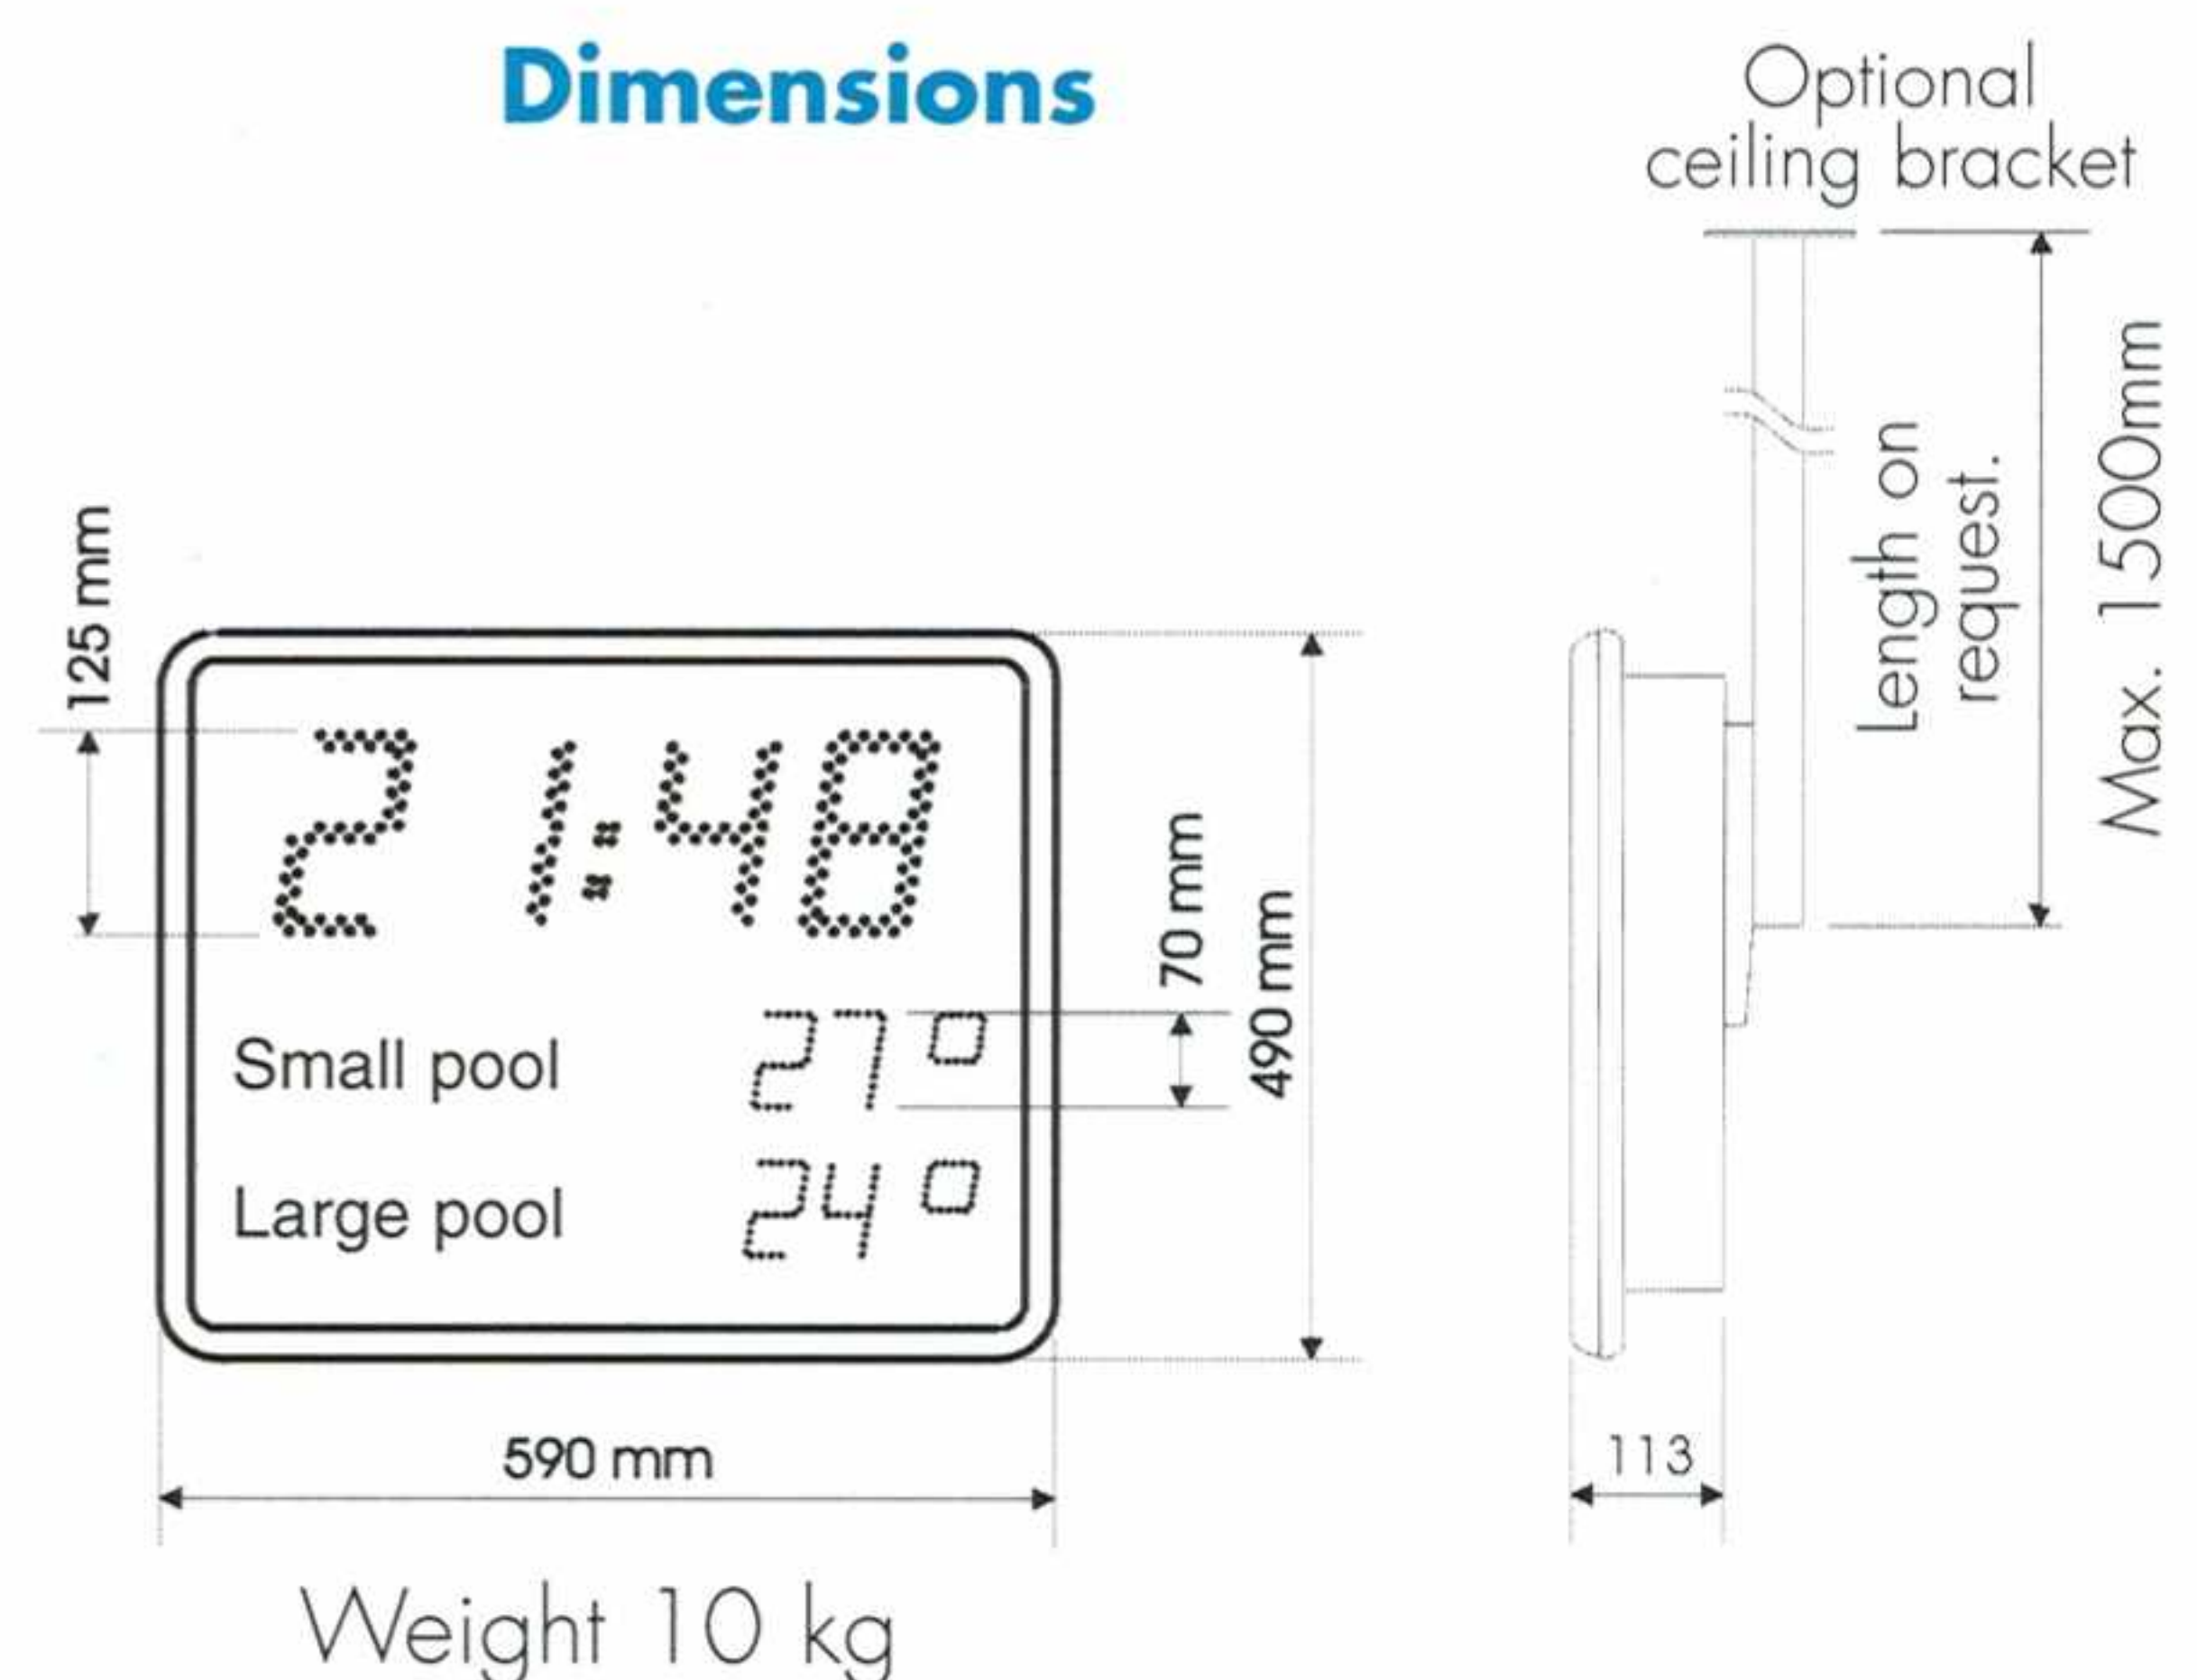

Aquastyle for 1 pool

- Time display
- Air temperature display
- Water temperature for 1 pool.
